#### 4. First Aid Measures

## 4.1 Description of first aid measures

**Eve Contact:** Immediately flush eyes with large quantity of water for 15 minutes. Seek medical

attention.

Skin Contact: Remove contaminated clothing; flush skin thoroughly with soap and water for at

least 15 minutes. If irritation or allergic reaction occurs, seek medical attention.

Inhalation (Breathing): If irritation of nose or throat develops, move to fresh air. If irritation persists, seek

medical attention.

Ingestion (Swallowing): No emergency medical treatment necessary

# 4.2 Most important symptoms and effects, both acute and delayed

Refer to Section 11 for more information.

#### 4.3 Indication of immediate medical attention and special treatment needed.

No information available.

## 5. Firefighting Measures

## 5.1 Extinguishing media:

Water fog or fine spray, dry chemical carbon dioxide, or foam.

## 5.2 Special hazards arising from the substance or mixture

Dense smoke is emitted when burned without sufficient oxygen.

## Hazardous decomposition and by-products:

CO<sub>2</sub>, CO, phenolics. May contain other combustion products of varying composition which may be toxic or irritating.

## 5.3 Advice for firefighters

Wear full protective clothing, including self-contained, positive pressure or pressure-demand breathing apparatus. Sealed container can build up pressure when exposed to high heat. Water fog may be used to cool fire exposed container to prevent pressure build-up and possible auto-ignition or rupture. Direct water stream may spread fire.

#### 6. Accidental Release Measures

### 6.1 Personal precautions, protective equipment and emergency procedures:

Isolate area. Use appropriate safety equipment.

## 6.2 Environmental precautions:

Avoid release to the environment. Prevent spill from entering drainage/sewer systems, waterways, basements or confined areas. Refer to Section 12 for more information.

# 6.3 Methods materials for containment and cleaning up:

Absorb spill with sand or absorbents. Residual resin may be removed using steam or hot soapy water. Collect as

much of the spilled material as possible using non-sparking tools and transfer to a container. Seal the container. Residual material can be removed with solvent.

#### 6.4 Reference to other sections:

Refer to Sections 4, 5, 8, and 13 for more information.

# 7. Handling and Storage

#### 7.1 Precautions for safe handling

Avoid personal contact with the product. All containers should be disposed of in an environmentally safe manner and in accordance with governmental regulations. Wash thoroughly after handling. Wash contaminated clothing before reuse. For industrial or professional use only.

# 7.2 Conditions for safe storage, including incompatibilities

Keep containers cool, dry, and away from sources of ignition. Keep containers and cartridges capped and sealed. Protect from freezing. All containers should be disposed of in an environmentally safe manner and in accordance with governmental regulations.

#### 7.3 Specific end uses

See technical data sheet on this product for further information.

## 8. Exposure Controls / Personal Protection

## 8.1 Control parameters

## **Exposure limits and recommendations:**

Contains no components with established Occupational Exposure Limit (OEL) values.

## 8.2 Exposure controls

# Respiratory protection:

Normal ventilation is adequate. If exposure exceeds recommended limits, respirator protection is recommended. Use a respirator or gas mask with cartridges for organic vapors (NIOSH-approved) or use supplied air equipment.

# **Protective gloves:**

The use of chemically resistant gloves is recommended to prevent skin contact. Suitable materials include nitrile (included in most kits), neoprene, ethyl vinyl alcohol (EVAL), PVC.

## Eye protection:

Safety glasses recommended.

## Other protective equipment:

Use protective cream if skin contact is likely. Remove and wash contaminated clothing before reuse. Discard contaminated shoes.
