

70E SOLUTIONS

OUR MISSION IS PROBLEM SOLVING

CAPABILITIES STATEMENT

WE PROVIDE SOLUTIONS TO READINESS & SUSTAINMENT PROBLEMS

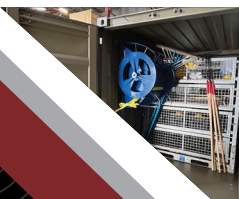

OUR HISTORY:

Founded in 2005, Mike Wright Sr. & his family began testing PPE for local electricians from their garage. Since its inception, 70E Solutions has grossed over \$100 million in total sales & now operates out of a 44,000 sq ft facility. Our commitment to problem solving & expertise has allowed us to expand into government procurement.

Not only is 70E Solutions an expert in electrical safety, over the last 10 years we have become a top-tier kitting provider. A dedicated government defense team brings over 150 years of combined experience making us a sought after partner across many military branches & federal agencies.

OUR GOVERNMENT DEFENSE TEAM:

- Our team is a blend of subject matter experts consisting of skilled professionals & Veterans. Offering unique problem solving skills that provide customers with solutions that exceed expectations.
- We have outfitted numerous military engineering units with construction expeditionary kits at both the unit & government program levels.
- We've repeatedly demonstrated our ability to meet contractual Berry & TAA Compliance requirements.
- Known for locating hard to source items, all while working to deliver reduced pack out footprints to our customers.
- Our sales rep's partner with MRO Kit Managers to research & update BOM's to meet or exceed required expectations.
