

# 70E SOLUTIONS

OUR MISSION IS PROBLEM SOLVING

## CAPABILITIES STATEMENT

### WE PROVIDE SOLUTIONS TO READINESS & SUSTAINMENT PROBLEMS

#### OUR HISTORY:

Founded in 2005, Mike Wright Sr. & his family began testing PPE for local electricians from their garage. Since its inception, 70E Solutions has grossed over \$100 million in total sales. We now operate out of a 44,000 sq ft facility & are currently in the process of doubling our footprint with additional warehousing capabilities.

Our commitment to problem solving & our expertise expanded into government procurement over 10 years ago. Not only are we experts in electrical safety, we have become a top-tier kitting provider making us a sought after partner across all military branches & federal agencies.

#### OUR GOVERNMENT TEAM:

- Our team consists of skilled professionals & Veterans that bring over 75 years of firsthand experience & unique problem solving skills to meet our customers needs.
- We have outfitted numerous military engineering units with construction expeditionary kits at both the government program & unit level.
- We've demonstrated our ability to meet contractual Berry & TAA Compliance requirements.
- Our staff excels at locating hard to source items, while working towards delivering reduced pack out footprints.
- Our team partners with MRO Kit Managers to research & update BOM's to meet required expectations.
